On the Tenth Anniversary of the 17th of February Revolution

As Libyans commemorate the tenth anniversary of the 17th of February Revolution, this year, in particular, comes with increased optimism. With parliamentary and presidential elections scheduled for 24 December 2021, the anniversary of the Revolution highlights the original goal of democracy, which Libyans have been striving for since 2011. For the sake of building an independent and prosperous democratic state, Libyans hope to achieve national reconciliation and security across the entire country in order to move forward to attain development and stability.

We at the Embassy of the State of Libya are pleased to extend our compliments to all Libyans on the tenth anniversary of the 17th of February Revolution.
